Applied Learning Academy

Old Edmundians Newsletter

Issue 2 November 2017

Welcome back!

The summer has flown by and here we are in November.

This year A Level results were impressive. Among our new Old Edmundians, Callum Cockell achieved A*AA. He is on his way to Warwick University to study Finance and Accounting. Samantha Taylor also achieved A*AA as did Zak Goble. Samantha is off to study Law at The London School of Economics and Zak is going to Manchester University to study Physics.

Jemima Nichols is going to study Dental Therapy and Hygiene at the University of Birmingham and Sam Maddocks is off to study Mathematics at Queen Mary, University of London.

We wish all the latest Old Edmundians all the very best and we hope to hear from you soon.

Old Edmundians pay us very pleasant visits. Teachers and students love to hear stories from Old Edmundians about their experiences during, and after, their time here. We had several visits during the summer term from Old Edmundians. Rob Clemenson frequently visits us to tell us about his study of Physics and fun at Oxford University. Paige Amber and Georgia Wallis came in to tell Year 11s all about Sixth Form and university life

If you would like to come in and talk about your experiences of life after KES then email me on: lucycooney@kes.essex.sch.uk

Rob Clemenson (left 2015) is always a welcome visitor. Rob is currently at Oxford University studying Physics but has returned to us on many an occasion to give talks and workshops. He also mentors Sixth Form Physics students. We look forward to welcoming Rob back soon.

Graduation!

So far we know of at least four Old Edmundians who graduated this year with First Class Honours degrees.

They are:

Paige Amber

Georgia Wallis

Louis Maskell

Benn Taylor

Please let us know how you did by emailing:

lucycooney@kes.essex.sch.uk
